Subject: Revision of Engineering Change Proposal 552 MDRI

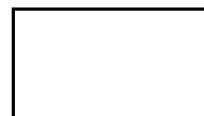

Reference: Engineering Change Proposal 552 MDRI, dated 27 March 64

Gentlemen:

Enclosed herewith is [] revised proposal quotation for the 552 MDRI Product Improvement revised 17 April 1964, which gives an Automatic Comparator-Mensuration capability to the 552 unit. The reason for this revised quotation is to include the cost associated with the procurement of the encoders from [] which encoders were, in our previous proposal, to be furnished by the government.

The price for this change is [] Since the changes on the 552 Machine are covered by a price redeterminable clause, the following effects occur in relation to the contract price.

Redeterminable price change
5% adjustment
Fixed Price Adjustment

In addition to the effect on price, the contract delivery schedule for the 552 Machine will slip 30 days from the date presently stated on the contract. This change proposal is valid for 30 days from this date. If this change is approved at some time greater than the 30 days from this date, the effect on contract delivery will be an additional day by day slippage.

A brief resume of that which is included in this quotation is as follows:

The cost of four (4) Digitizers to meet the following requirements.
Manufacturer: [] Model 27-625Z providing 2,500 pulses for each revolution, when used with Model 15-EL-5 and 15-EL-44, these encoders are ruggedized (military) type, with zero reference once per revolution. The cost of a one-time charge for new disc is included.

The cost of the electronic shaping electronics (15-EL-5 and 15-EL-44) is not included.
